

# Team Meeting

**Date:** March 7th, 2022

**Attendees:**

Nigam Lad  
Ben Wilson  
Yidu Guo

**Absent:**

N/A

## 1. Project

**Progress**

- This week the focus of the team is to complete a peer testing report.
- We are also researching into mongodb functions that could help us with special case mismatches

**Blocker + Surprises**

- N/A

## 2. Learning Activity

- MongoDB documentation for function for special mismatches
- MongoDB Python API documentation

**Summary**

At the end of this week, we will be completing the peer testing report, along with our individual peer evaluation.

## 3. Plan

**Tasks for next week:**

1. Discuss goals for the next and final milestone
2. Plan and organize approach to final delivery of the project

**Learning activity proposed for next week:**

1. Research and test MongoDB python API codes for special mismatching cases

**Goals for next milestone:**

- ☒ ~~Decide on database configuration~~
- ☒ ~~Integrate database into pipeline~~
